Dear colleagues!

We invite you to participate in 9th International Scientific Conference on Sustainability in Energy and Environmental Science

The conference will take place **ONLINE**
on **June 22-24, 2022** in Ivano-Frankivsk, Ukraine

Joining the conference

Meeting ID: <https://meet.google.com/iaw-ucny-bun>

We invite scientists, practitioners, teachers of educational institutions, doctoral students and graduate students to participate in the conference.

The 9th International Scientific Conference on Sustainability in Energy and Environmental Science (ISCSEES2022)

is an event addressed to scientists and professional engineers from all over the world. The conference aims to give the opportunity to present and publish their work, discuss, exchange ideas and knowledge as well as network for future collaborations. The conference covers a broad range of sustainability in energy and environmental science related topics.

Conference topics:

- Sustainable development of renewable, smart and environmentally friendly energy.
- Science and technology in the field of environment.
- Environmental restoration, environmental engineering and eco-technology.
- Sustainable development of agriculture and environment.
- Management in a circular economy.
- Risk management in energy, Earth and environment systems.
- Measurement, forecasting and monitoring of infrastructure facilities stability.
- Global and regional challenges for the development of communities and territories.
- Global threats, catastrophes, pandemics and emergency measures.
